# silhouette

## So fine, just stunning

The silhouette range has a simple but elegant form based on the serene balance of proportions and the reduction of the object essentials, giving the product the right tone of voice in order to fit within its environment.

# allure authentic, honest

The refined translucent edge that surrounds Allure, accentuates its elegant profile – only 9mm off the wall surface, creating a unique floating effect.

# finesse minimal, sleek

The architecturally inspired Finesse range is sure to impress audiences with its minimalistic and precise design, and is considered to be ingeniously simplistic.
