## Hager Group earns EcoVadis Platinum rating for the second year in a row

**Score increases to 88/100, placing the company again among the top 1% of over 135,000 assessed organisations.**

Hager Group has once again been awarded the EcoVadis Platinum rating, confirming its place among the global leaders in corporate sustainability. With a score of 88/100, the company improved its performance for the second consecutive year.

EcoVadis evaluates companies across four areas: environment, labor and human rights, ethics, and sustainable procurement. Hager Group recorded measurable efforts in each area.

### Progress across all four assessment dimensions

#### Environment & Digital Backbone

In 2025, the Group completed an independent carbon-footprint audit, providing a clearer baseline and more transparent pathways for reducing emissions. The audit also supports the development of improved sustainability and environmental reporting tools.

#### Ethics

Hager strengthened its cybersecurity governance to protect customer, employee and partner data. The company also continued to reinforce its compliance processes to guard against corruption and anti-competitive practices, relying on our network of 20 committed Ethics ambassadors worldwide.

#### Labor & Human Rights

Hager advanced its diversity and inclusion commitment, including the goal of reaching 30% women in senior manager and above positions.

#### Sustainable Procurement

Hager further advanced its sustainable sourcing programme, integrating environmental and social criteria into supplier onboarding to ensure close cooperation with responsible and innovative suppliers. In 2025, we have onboarded 64% of suppliers that were part of our pilot phase embarking them into our sustainability journey.

## A consistent commitment to long-term value

"We are proud to lead the way in shaping safer, smarter, and more sustainable buildings – today and tomorrow. The renewed EcoVadis Platinum rating shows that our progress is real, documented and aligned with what customers and partners expect from us," says Sabine Busse, Chief Executive Officer.

EcoVadis ratings are increasingly used by customers in supplier assessments and tender processes. Maintaining Platinum status helps position Hager Group as a reliable and responsible partner in key markets.

Sabine Busse adds: "Earning such recognition once is significant. Confirming it again demonstrates our commitment to a premium offer in all aspects."
