

## Press release

15<sup>th</sup> of January 2026

### Hager joins ChargeUp Europe and accelerates the rollout of EV charging infrastructure

**Hager, a leading provider of solutions for electrical installations in residential, commercial and industrial buildings, has joined ChargeUp Europe, the industry association representing the electric vehicle (EV) charging infrastructure sector in Europe.**

With strong expertise in energy distribution, cable management, building automation and e-mobility, Hager delivers innovative EV charging solutions and services tailored to diverse European markets, building segments, and e-mobility key accounts.

By joining ChargeUp Europe, Hager reinforces its commitment to driving sustainable electric mobility and supporting the rapid growth of high-quality EV charging infrastructure across the continent.

“As a committed global leader in e-mobility, Hager is excited to join ChargeUp Europe,” said Octavian Craciun, Lead Director Charging Business at Hager. “This partnership aligns with our mission to drive innovation in e-mobility solutions and strengthens our dedication to collaboration across the industry. Together, we aim to accelerate the deployment of EV charging infrastructure throughout Europe and contribute to a cleaner, greener future.”

Through its participation in ChargeUp Europe, Hager will actively contribute to shaping policies, standards and best practices that enable a seamless, reliable and future-proof EV charging ecosystem across Europe.

Commenting on the announcement, ChargeUp Europe Secretary General Lucie Mattera stated: "We particularly look forward to bringing Hager into our large body of work on energy system integration, where their deep expertise will be a perfect fit."

#### About ChargeUp Europe

ChargeUp Europe is the industry association for the electric vehicle (EV) charging infrastructure sector. Our association works to accelerate the switch to zero emission mobility and ensure that EV drivers can enjoy a seamless charging experience with access to high quality, readily available charging infrastructure across Europe. As of today, our member companies are active in all 27 EU Member States, the UK and EFTA.

#### About Hager

Hager is a leading provider of solutions and services for electrotechnical installations in residential, commercial and industrial buildings with 13,000 employees generating 3 billion Euros in sales.

Components and solutions are produced at 23 locations around the globe and are distributed to customers in more than 100 countries. Hager Group is an international independent family-owned company headquartered in Germany.

Being one of the industry's innovation leaders, Hager aims at sustainably shaping the electrical world of tomorrow and play a leading role in the field of energy management and distribution. Customers rely on the group's safe and simple products and solutions which range from energy distribution, cable management and wiring accessories to building automation and energy management under the brands Hager, E3/DC, Berker, Elcom, Bocchiotti / Iboco, Pmflex Eficia and Advizeo.
